Race Fans: It's that time of year ...

when our thoughts turn to cars this month and the famous, "Ladies and Gentlemen start your engines." (Last month you could have seen the early Indy 500 at the downtown Post Office as people were dropping off their tax returns on April 17th.) If you haven't already done so, this is that time of year when you need to think about protecting your family in your car. So, although we are tax attorneys, we have two car related winning suggestions as you strap on your driving helmet.

First, you should increase your insurance coverage to the MAXIMUM! Pull out your car insurance policy. **You should carry no less than a one million dollar policy.** When you take a look at your insurance policy, you likely are carrying far less insurance than one million dollars. If you are involved in an accident, with the cost of medical care these days, you want to make sure that anyone you might injure receives the medical care they need. The cost of medical care if there were a serious injury easily can be quite high. Those bills won't pile up from a serious wreck by a mere one or two thousand, ten thousand, or even a hundred thousand dollars. When your insurance coverage runs out, you are responsible for the medical bills that are unpaid.

It also is quite likely that the other driver's insurance coverage will be far less than your coverage. Many of the drivers in accidents are either uninsured or if they are insured, they are carrying the minimum. If you are seriously injured, their insurance won't be enough to cover your medical bills and they won't be able to pay your medical bills out of pocket either. They also may file for bankruptcy. By raising your policy to the maximum, if you are injured, YOU are protected under your policy. The uninsured/underinsured provision of your policy will protect YOU and provide you the coverage that you need. It may surprise you just how inexpensive it is to add additional coverage to have the maximum coverage. It's a great bargain and will protect you. Many insurance agents do their customers a disservice by not selling them the "extra" coverage. Don't make this mistake! As lawyers, we've seen this make a really big difference in people's lives.

Second, raise up the headrests on your car seats. They should be adjusted on both the driver's side and the passenger's side of the car seats. Place the headrest to a height just above your eyelids, and as close to the head as possible, so that when your head rocks back it is nestled in the headrest. It doesn't do you any good if it's too low and hits you in your neck. This makes a real difference if someone hits you from the rear. It helps prevent whiplash. Raise your headrest and protect yourself and your family.

You can be in the Winner's Circle lifting a bottle of milk just by doing both of these things.

P.S. Don't forget that the Mug n Bun (tenderloin sandwiches and homemade root beer) is about a mile from the track.

Doloris's Divine Dishes

CREAMY COLESLAW

This is a very creamy slaw

- 1 medium head of cabbage
- 1/4 cup of sugar
- 1 small carrot grated
- 1 cup Miracle Whip

Mix Miracle Whip and sugar together to make a dressing, it should be gritty when you taste it.

Grate the cabbage the way you like it (fine to coarse) for your slaw and a small sprinkling of carrot (grated).

Refrigerate overnight (It gets better every day)

This is the best creamy slaw I ever eaten; it came from a friend that runs a restaurant in southern Indiana. I asked her where she got the recipe and she said it was the recipe the former owners used for years and that was 40 years ago when she bought the restaurant, so it has stood the test of time.
